FC Thun

«isolutions is the ideal and very competent Microsoft partner for business solutions within Switzerland. Through them we could reduce our IT costs massively and benefit from the up-to-date tool and features.»

Mirko Aubert, Lead Marketing

Founded in 1898, FC Thun is the largest sports club in the Bernese Oberland. In 2002, FC Thun succeeded in advancing to the highest division, the Raiffeisen Super League. There, FC Thun surprises with its constant performances and becomes an integral part of the league. Since 2011, FC Thun has been playing in the very modern Stockhorn Arena, which can seat up to 10,000 visitors.

Thanks to the introduction of the entire Office 365 range FC Thun can reduce its internal IT costs by 50%.

Initial situation

The local server and client IT infrastructure had reached the end of its life cycle. The decision was made to either continue with the existing on-premise technology (local server infrastructure) or to deploy new Microsoft cloud technologies and thus take a big step towards a modern way of

working. The goal was to find a flexible, scalable and cost-effective solution that would meet the requirements of a modern workplace including teamwork.

Solution

At FC Thun AG, all computers were renewed and migrated to Windows 10. The entire Office 365 platform was used, as well as Skype, SharePoint, Planner and other functions. The end-user devices are managed and administered with Microsoft Windows Intune, which ensures the security of the entire working environment.

FC Thun AG benefits from various services from Microsoft Office 365:

- 100 GB Mailbox mailbox per user
- unlimited mail archive
- access to all functions from all possible mobile devices

Thanks to the solution, the acquisition and maintenance of local IT systems can be dispensed with in the future, thus eliminating the need for cost-intensive hardware replacements.

Benefits

- **Cost savings:** The implemented cloud transformation can save up to 50% of annual IT costs.
- **Simplified collaboration** through modern tools.
- **Scalable and predictable costs:** IT support is fully provided by solutions and is included in the package price per user per month. This leads to scalable and predictable IT costs per month.
- **Location-independent work**, such as home office, is now possible.

Partner profile

#weshapethefuture

Founded in the civil defense cellar by three visionaries from the Bernese Oberland, isolutions has been accompanying companies into the digital future since 1999 as the largest dedicated Microsoft one-stop-shop in Switzerland. We integrate Microsoft services in a way, that adds value and has a positive change in the corporate culture.

Supported by over 200 passionate minds consisting of business and technical consultants, change makers as well as software developers, architects and cloud natives, we are driven to peak performance by our customers and their challenges. Together with customers from different industries, we build the bridge to the tech giant Microsoft. All with one goal: To create the best employee and customer experience in order to achieve competitive advantages.

Customers love our inspiring corporate culture, which is contagious. It successfully supports and overcomes organizational or technological challenges. Together with them, we shape the future of teams, products, companies and entire industries.
