# Patrimonium

**«isolutions is a very competent IT partner for companies looking for efficient cloud solutions for their Microsoft applications.»**

Mathias Isenrich, COO

Patrimonium is an independent Swiss asset manager of alternative asset classes. Its core business is real estate and infrastructure investments as well as the financing of medium-sized companies. Today, Patrimonium and its affiliated companies manage around CHF 3 billion of assets for a large number of institutional and private investors. Patrimonium employs over 50 people in Echandens / Lausanne, Zurich and Baar.

**PATRIMONIUM**

Complete IT solution with Workplace as a Service.

# Initial situation

The client IT and on-premise server infrastructure had reached the end of its lifecycle. New solutions were evaluated: should they rely on previous on-premise technologies or consider moving to the cloud? The key requirements to be met by the new

solution were scalability, flexibility, and the ability for teams to collaborate intelligently. Patrimonium chose cloud technology with the goal of providing your employees with a cutting-edge workplace.

# Solution

Patrimonium's old devices were replaced with new ones and migrated to Windows 10. In addition, the entire Microsoft Office 365 suite including Skype for Business, SharePoint, Planner, Teams and more was implemented. The devices are managed and administered using Windows Intune. This ensures the security of the environment and easy maintenance. Thanks to this solution and the use of Office 365, there will be no need to purchase and maintain local IT systems in the future. Cost- and time-intensive hardware replacements are no longer necessary.

In addition to Microsoft products, Patrimonium also benefits from the Workplace as a Service model. The devices, the latest tools with premium support and license management are provided, managed and operated by isolutions. The company pays per month and per user. In this way, Patrimonium keeps costs manageable and has the flexibility to scale down or up each month. Continuous growth at the IT level becomes possible at low cost.

# Benefits

- **Cost savings:** With the new solution in the cloud, up to 50% of the annual expenses saved.
- **Reduction of IT costs.**
- **Simplified collaboration through modern tools.**
- **Scalable and manageable costs thanks to monthly fixed costs per user including full IT support by isolutions.**
- **Possibility for location-independent work, such as home office.**

# Partner profile

#weshapethefuture

Founded in the civil defense cellar by three visionaries from the Bernese Oberland, isolutions has been accompanying companies into the digital future since 1999 as the largest dedicated Microsoft one-stop-shop in Switzerland. We integrate Microsoft services in a way, that adds value and has a positive change in the corporate culture.

Supported by over 200 passionate minds consisting of business and technical consultants, change makers as well as software developers, architects and cloud natives, we are driven to peak performance by our customers and their challenges. Together with customers from different industries, we build the bridge to the tech giant Microsoft. All with one goal: To create the best employee and customer experience in order to achieve competitive advantages.

Customers love our inspiring corporate culture, which is contagious. It successfully supports and overcomes organizational or technological challenges. Together with them, we shape the future of teams, products, companies and entire industries.
